We look forward to seeing you

The 1989 Loma Prieta Earthquake inspired the grassroots beginnings of the Neighborhood Emergency Response Team (NERT) and the Marina Earthquake Monument (mEQm) group, whose mission has been to create a monument to remember the earthquake and its impact on the Bay Area; to honor the Fireboat Phoenix, the SFFD, and the NERT program; and to educate the public about the importance of disaster preparedness. Today we honor the *Bow*, and the people behind the vision.

**Remember, Honor, Educate and
Illustrate!**
